

University of Belgrade
Faculty of Medicine
Dr Subotića 8, 11 000 Belgrade

July 2022.

Dear Sir, Madam,

We would highly appreciate if you could consider enrolling our student

for clinical practice in Internal Medicine/Surgery at your Institution. All fourth/fifth - year medical students at our Faculty within workloads in fourth/fifth academic year are obligated to complete clinical practice in Internal Medicine/Surgery.

It is expected that, during the summer, students complete 60 hours of practical work (10 working days) at the Internal Medicine/Surgery Department of a hospital. The main goal of this project is to give our students a chance to broaden their knowledge and to gain some experience with basic medical procedures: anamnesis, physical examination, laboratory results, therapy etc.

Students are expected to keep detailed written records of their practical work which should be approved and signed by the Head of the Institution in the students' index (and also in the Clinical Practice workbook, if it is applicable).

We thank you in advance and look forward to our further cooperation.

Best regards,

Prof. Dr. Dusan Popadic
